

ASS.
OCS.
OLL.*The Commonwealth of Massachusetts*

ANNUAL REPORT

OF THE

COMMISSIONER OF PUBLIC SAFETY

FOR THE

YEAR ENDING NOVEMBER 30,

1935

The Commonwealth of Massachusetts

FIFTEENTH ANNUAL REPORT

THE DEPARTMENT OF PUBLIC SAFETY

Year Ending November 30, 1935

To the Honorable Senate and House of Representatives:

I have the honor to submit the annual report of the Commissioner of Public Safety for the year ending November 30, 1935. This report is made in compliance with Section 1 of Chapter 147 of the General Laws.

No material change in the organization of the department has occurred during the fiscal year. Owing to a growing demand for space for natural development of department work, it was found necessary to move to larger quarters. Arrangements were concluded for occupancy of offices at Commonwealth Pier formerly occupied by the Department of Public Works and on November 16th the change of location was effected. The accommodations at the new location supply the much needed space for efficient operation and for the natural expansion of such important features of police work as criminal identification, photography, chemistry, ballistics and communications.

ROSTER OF THE DEPARTMENT

BUREAU OF CRIMINAL IDENTIFICATION

A reorganization of the so-called Rogues' Gallery in the Bureau of Criminal Identification has been effected during the year. This was

accomplished by the adoption of a system of classified grouping of crimes.

The gallery existing prior to this reorganization was based upon the Bertillon System of identification by measurements and which by reason of modern developments in fingerprint science has become generally outmoded.

Under the new system it is possible to locate each photograph speedily and accurately by the type of crime which the subject has committed. The classification establishes major crime groups in accordance with:

Crimes against government.	Crimes against public peace.
Crimes against persons.	Crimes against public policy.
Crimes against property.	Crimes against chastity, decency,
Crimes against public health.	morality and good order.
Crimes against justice.	Crimes against currency, forgery.

These groups are further subdivided into crimes of a similar nature and whenever necessary are broken down into class of property, class of criminal and methods used. A register is used to assign a definite group title and sequence number for each photograph. To complete the connection the central index and fingerprint files are tied in with the register, classified photograph, and description history record.

The following records were received during the year ending November 30, 1935:

Finger Prints

Finger Print Records:

Received from the Massachusetts Reformatory	483
Received from the Massachusetts State Prison	340
Received from the Massachusetts State Farm	1,229
Received from the Women's Reformatory	214
Received from Bridgewater Criminal Insane Hospital	49
Taken in the Division of State Police	629
Received from the Massachusetts Police Departments	6,818
Received from Massachusetts County Institutions	3,015
Received from Penal Institutions (outside)	3,404
Received from Police Departments (outside)	2,347
Received of Unknown Dead	20
Total	18,548
Grand total of finger print records on file	262,147

Modus Operandi Classifications

Received from the Massachusetts State Prison	292
Received from the Massachusetts Reformatory	415
Received from the Massachusetts State Farm	457
Received from Women's Reformatory	165
Made in the Division of State Police	60
Received from Bridgewater Criminal Insane Hospital	18
Received from Massachusetts Police Departments	4,898
Received from County Institutions	2,573
Received from Police Departments (outside)	948
Received from Penal Institutions (outside)	33
Total	9,859
Grand total of Modus Operandi Photographs on file	41,837

Records of photographs and finger prints sent out upon request of police and prison officials:

18	P.D. 32.
Probation violators	2
Escaped prisoners	4
To Police Departments for verification of identification	4,249
Total of photographs and finger prints sent out	<u>4,255</u>

Identifications made in connection with arrests, fugitive from justice circulars, unknown dead, etc.

Escaped prisoners (Massachusetts Institutions)	7
Escaped prisoners (Outside Institutions)	3
Parole violators (Massachusetts Institutions)	208
Probation violators (Massachusetts Courts)	8
Fugitives from justice (Massachusetts Police Departments)	3
Fugitives from justice (Police Departments outside)	5
Persons awaiting trial (request of Court)	27
State Police prints	58
Teletyped prints	4
Unknown dead	4
Modus operandi photographs	5
Finger print cards	7,758
Total Identifications	<u>8,090</u>

In addition to these identifications, 10,100 letters containing criminal records have been sent to police and prison officials, furnishing information concerning the most recent arrests of the subject of the record.

Criminal records rechecked for Boston Police Department (out of state prints, hackney drivers and special officers)	1,318
Criminal records obtained from Board of Probation (over a seven month period)	1,470
Criminal records rechecked for Board of Probation (over a seven month period)	260
Records of wanted persons checked in our files (out of state over a six month period)	460
Fugitives no longer wanted, for whom notifications were sent to police officials	11
Photographs copies for classification according to modus operandi (over a six month period)	3,764

Oil tankers inspected for spills	1,075
Motorboats inspected	116
Warned for improper or no mufflers	4
Warned for no lights	2
Warned for dangerous operation	6
Miles by automobile	36,220

STATE POLICE BUILDINGS

The year 1934-1935 has witnessed a substantial improvement in housing accommodations for the personnel of the Uniformed Branch of the Division of State Police. The Public Works Administration projects, in which Massachusetts cooperated with the Federal government, have provided nine new fireproof buildings for State Police purposes; including a Troop Headquarters building, seven Sub-station buildings located at Athol, Shelburne Falls, Concord, Andover, Topsfield, Yarmouth and Norwell, and a Supply building at Framingham.

The Troop Headquarters building, which will serve as a headquarters for Troop A at Framingham, is located on the muster field formerly used by the National Guard as a camp and training field. This building is of fireproof construction throughout, 101 feet in length, 43 feet in width, and consists of two stories, attic and basement. The first floor of this building contains four offices, teletype room, guard room, cell room, dining room and kitchen. The basement contains a radio room with adjoining workrooms, a machine shop and garage. The heating and fuel equipment are also located in the basement. The second floor consists of thirteen double rooms with clothes closets, toilets, showers and lavatories. The attic floor contains three single rooms and two dormitories and is equipped with showers and toilets. Soundproofing is provided for the walls of all offices, sleeping rooms, dormitories, basement garages and radio rooms. The floors are of asphalt tile covering and the toilets and showers are equipped with terrazo floors.

The supply building, which is also located on the muster field at Framingham, serves as a supply center for the entire group of State

Police stations throughout the State. This building is of fireproof construction, 87 feet in length, 45 feet in width, and contains, in addition to the space provided for storage, garage space for two cars and a portable radio station. The first floor of this building contains offices, sleeping accommodations for officers on duty in the building, a tailor shop, toilets and showers. Storerooms for supplies are provided on the second floor and basement, and the building is equipped with a lift, metal bins, and shelving. Loading platforms are provided at both the ground and first floor level.

The seven Sub-station buildings are identical in construction with the Troop Headquarters building, except as to size. These buildings are 43 feet by 54 feet. They contain two offices, dining room, kitchen, guard room and cell room on the first floor. Rooms accommodating thirteen men are located on the second floor, and the third floor contains a large dormitory with toilets and showers.

These buildings are designed in the early colonial brick type with slate roofs. Cement walks lead to the entrances and gravel driveways to the garages in the rear. Flanking each building are flagstaffs for the national and state emblems. At the sidewalk line an illuminated sign indicating the use of the buildings is provided.

Under the P. W. A. program, 30% of the cost of these buildings was borne by the Federal government. The construction cost of the Troop Headquarters building was \$58,707, the Sub-station at Athol — \$38,389, at Shelburne Falls — \$37,699, at Concord — \$35,990, at Andover — \$34,987.24, at Topsfield — \$36,765, at Yarmouth — \$38,360, and at Norwell — \$36,974, and the Supply building at Framingham — \$34,982.

TELETYPE

Teletype facilities at present include service to and from all State Police stations, the Metropolitan Boston suburban system, the cities of Fall River, Worcester and Springfield, and connection with the states of Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware and Ohio.

Connection is also established between State Police stations and the Board of Probation for the convenience of Probation Officers in assembling information in connection with cases before the courts, and with the Registry of Motor Vehicles for reference in tracing stolen automobiles.

RADIO

The radio equipment of the State Police includes three broadcasting stations, a 50-watt portable transmitter and one hundred cruiser cars equipped with radio receiving sets. Station WMP is located at Framingham, Station WPEL at West Bridgewater and Station WPEW at Northampton. At each radio station a stand-by receiver is continually tuned to our other stations to prevent interference on our assigned frequency.

The portable station which is licensed as Station WPEV is mounted on a six cylinder one and one-half ton truck and has a broadcasting range of 20 miles. This station has been found very effective in situations where a number of cruiser cars are operating in a limited area and close contact with the officer in command is desired.

Radio service is given to police departments of cities and towns which maintain cruiser cars with radio sets tuned to one of our broad-

casting frequency. There are at present approximately 90 Massachusetts cities and towns using this service and receiving messages from State Police stations 24 hours each day.

During the fiscal year of 1935 Station WMP was on the air 948 hours; Station WPEL for 755 hours; Station WPEW for 736 hours and Station WPEV for 21 hours.

Receiving sets are to be installed on 20 motorcycles to be distributed to all parts of the State for the purpose of determining the advisability of installation on all motorcycles used by the State Police.

About August 1, 1935 a new radio antenna was installed at a new location for Station WMP at Framingham. This is a one tower, self-balancing type and is 228 feet in height. During the moving of the WMP transmitter to its new location, the portable station WPEV was used to transmit messages to all cruiser cars. By so doing, continuous radio service was maintained. This type of antenna is known as a vertical radiator, and when used in conjunction with the present transmitter the signal strength is increased 2 to $2\frac{1}{2}$ times.

The portable radio transmitter has been completely overhauled and is now crystal controlled. This enables the transmitter to operate immediately after the antenna system has been erected. Formerly it was necessary to retune the transmitter to the proper frequency.

At the present time $7\frac{1}{2}$ meter, two-way radio communication is in the experimental stage in the department, and it is expected to add greatly to the efficient performance of police duties by enabling two or more cruisers to communicate with each other.

Although the two-way radio is not practical as a whole for State Police service due to its limited range, there are a number of ways in which it can be used. In one case a search was being made in a sparsely settled district for a dangerous criminal and a number of cars were used, and two way radio was used to great advantage. Due to the small number of telephones in the area it would have been necessary to travel 3 or 4 miles to a phone to contact the main radio station to re-broadcast any information. The cars equipped with two-way radio contacted other patrol cars, and the information received was transmitted to the main station and in turn re-transmitted to all cars on the detail. This system was also used on the patrol boat on the Connecticut River and it kept the boat in constant touch with the Troop headquarters in regard to flood and other conditions on the river.

TRAFFIC CONTROL

The personnel of the State Police assigned to Traffic Control duty, operating for the first full year with a strength of 150 members, have proved the effectiveness of increased highway patrols in the reduction of traffic accidents and have demonstrated that traffic law observance and enforcement are of primary importance in securing safety upon our highways.

In the enforcement of the motor vehicle laws a card system is used which provides a record of every motor vehicle law violator in the central files at Headquarters in Boston. All cards are forwarded to headquarters, and there the circumstances surrounding each complaint are recorded and the disposition noted. The records at the central files show that during the past year the traffic officers have stopped 53,990 motorists, this being an increase of 6,492 over the 47,498 reported in 1934. The dispositions noted on these 53,990 violations show that they were disposed of as follows:—1,723 arrests, 13,103 summonses, 21,968 warnings; 17,002 were stopped and checked for their license and regis-

tration and found to be properly covered, and 194 reports were sent to the Registrar recommending suspension of license or registration as the result of some serious violation. In addition to these violations, there were 43,151 cards served on motorists for defective equipment. These cards are issued by the Registrar and require the motorist to have the defect corrected within four days and the card returned to the Registrar, after being signed at an authorized brake and light station.

It is not our policy to take court action against motorists committing minor auto law violations in order to attain proper traffic control. It was found, however, that some persons who had been warned were repeating the offenses; and in order to attain the necessary cooperation in enforcement arrangements were made with the Registrar whereby a copy of all warning cards are sent to his office. These cards are filed there; and, if a repetition occurs, action is taken against the operator by the Registrar.

During the fiscal year of 1935 there were 1,636 traffic accidents on the highways reported by the officers assigned to traffic duty, which is a reduction in number of 60 or 3½% as compared with the year before. There were 93 fatalities reported in 1935 as compared with 121 in 1934. This reduction of 28 is 23.1% reduction. This reduction of 23.1% of the number of fatalities reported compares with a State-wide reduction in fatalities of 14.4%. The number of personal injury accidents reported during 1935 was 2,076, an increase of 65 or 3.2%.

An analysis of all the accidents reported for the year 1935 shows that the particular violation known as "Speed too fast for conditions" accounted for 689 out of 1,636 accidents reported. This violation of "Speed too fast for conditions" includes reckless driving and skidding. Next in importance was the violation known as "Drunken Driving", which accounted for 229 of the accidents. "Failing to keep to the right" caused 140 of the reported accidents.

It is interesting to note that 75% of the accidents resulting in fatalities occurred during the hours of darkness, with the peak period being from 6 p. m. to midnight, when approximately one-third of the total number of accidents occurred.

Accidents occurring on Saturday and Sunday constitute almost one-half of the total accidents reported. The months of June, July and August provide almost one-half of the total number of accidents. It is interesting to note that over one-half of the accidents reported occur on "Straightaways" and approximately three-quarters of the accidents occur when weather conditions are clear and fair.

STATE POLICE SCHOOL

At intervals during the fiscal year of 1935 courses of instruction were given by the instruction staff of the State Police School at the various State Police troop headquarters. At these courses a review of police practice and procedure was conducted, and instruction was given concerning the recent changes in the General Laws respecting crimes and court procedure.

A school of instruction in criminal law and police practice was also instituted at the request of town authorities in Dedham, Norwood, Franklin, Wrentham, Foxboro, North Attleboro, Sharon, Mansfield, Canton, Stoughton, Avon and Easton. This course extended over a period of seven weeks and was held alternately in Norwood and Foxboro. The school was attended by 110 officers and subjects similar to those included in State Police Instruction were included.

At the present time a similar school is being conducted at Clinton in cooperation with the Northern Worcester County Police Association. There are in attendance for this instruction eighty police officers from the towns of Lancaster, Sterling, Holden, Rutland, Grafton, Paxton, Bolton, West Boylston, Harvard, Oakdale, Boylston, Lunenburg, Berlin, Clinton, Dudley and Leominster.

STATE POLICE PISTOL TEAM

During the year 1935 forty-three members of the uniformed branch qualified as experts, fifty as Sharpshooters and one hundred and fifty as Marksmen, under the rules of the New England Police Revolver League.

In May twenty-eight experts of the department competed at West Bridgewater for places on the State Pistol Team and for the Tyro Team. The first team competed at the New Jersey State Police Training School at Trenton, at the New England Police Revolver League Matches at Woburn, at the New England Championships at Wakefield and at the North Atlantic States at Hartford, Connecticut. The Coach of the Team attended the National Police School and National Matches at Camp Perry, Ohio. The Team won the New England Police Revolver League Match at Woburn and the New England Championship Match at Wakefield. The Tyro Team won the Hultman Trophy at Wakefield for police tyro teams. The same Tyro Team finished second by one point in the New England Police Chiefs' Team Match at Wakefield.

During the year teams representing the four troops and one from State Police headquarters engaged in an inter-troop shoot. Members of the State Police Pistol Team were ineligible to compete in these matches. Troop A's team was the winner, and Troop D's team finished in second place. The inter-troop shoot is to be carried on this winter and through the spring of 1936.

RED CROSS FIRST AID

In October of this year the American Red Cross instituted courses of instruction in First Aid at 347 Commonwealth Avenue, Boston, with a view to training persons for First Aid units in every community. As a part of this program it was proposed to locate a First Aid station at each station of the State Police. In cooperation with the Red Cross four officers of the grade of Sergeant were assigned to attend the courses.

The first course, known as the Standard Course, consisted of fifteen hours' instruction in practical problems in First Aid, application of the tourniquet, artificial respiration, general class work and a written quiz of twenty questions.

The four State Police officers assigned to the course qualified in First Aid and were then enrolled in an "Instructor" course. This course was given under the direction of a physician in the Red Cross service over a period of thirty hours and was designed to qualify persons as instructors. It is intended to use the services of the four officers receiving this instruction in qualifying all members of the State Police in the standard course in First Aid.

DIVISION OF FIRE PREVENTION

General Laws, Chapter 148, requires that the Fire Marshal study fire hazards and fire prevention and all matters relating thereto; hear appeals, suggestions and complaints from all persons and from all cities

and towns; advise with officers of such cities and towns and make suggestions to the cities and towns for the improvement of laws, ordinances and by-laws relating to fire departments, construction of buildings or fire limits, use and occupancy of buildings and other premises; protection of existing buildings, fire escapes and other life-saving devices; segregation and licensing of trades dangerous by reason of fire hazard and all matters relating to fire prevention and fire hazard.

In compliance with the provisions of this statute, the Marshal met with fire department officials throughout the commonwealth and conferred in many sections of the state with representatives of communities interested in the work of fire prevention, with a view to securing an improvement in fire prevention methods. Special attention was given to the matter of proper storage of inflammable fluids along the waterfront. As a result of this particular activity, there has been a noticeable increase in the equipment to combat oil fires and a greater coordination of the movement to prevent such fires.

The Marshal has also assisted several fire departments in the organization and operation of fire prevention bureaus within their respective departments. Support has also been given to the continuation of training schools for firemen; and the Division of Fire Prevention has cooperated with the Department of Education, the Fire Chiefs Club and the Massachusetts Farm Bureau Federation and others interested in the training of firemen in communities where there are no organized drill schools.

During the past year fire prevention lectures were given by an officer of the Division of Fire Prevention in fifty-one cities and towns throughout the Commonwealth. Instructions pertaining to the discovery of evidence of incendiarism and the proper method of handling and preserving the same were given at thirty-two sessions of the Regional Fire Schools at eleven cities and towns. Fire prevention lectures were given at the following places:

Saugus, Melrose, Springfield, Lowell, Brockton (2), Clinton, Halifax, Raynham, New Bedford, Somerset, Methuen (2), Needham, Auburn, Vineyard Haven, Hingham (2), Holyoke, Waltham, Westwood, North Dighton, Malden, Haverhill, Ayer, Salem, Pittsfield, Fall River, Groveland, Quincy, North Easton, Whitman, Framingham (2), Wellesley (2), Amherst (2), Andover, Attleboro (2), Rockland, Newton, Worcester (6), Boston (3), Brookline (3), Middleborough, Northampton, Berlin, Wakefield (2), Fitchburg (2), Taunton (2), Arlington, Cambridge, Mansfield, Falmouth, Athol and Concord.

The Marshal has also cooperated with Federal and local authorities for the construction of additional "water holes" in rural districts and in sections beyond the hydrant service and has assisted in securing Federal approval for a number of such projects.

During the year there were 129 arrests for fires, as the result of which 101 convictions were secured; 12 found not guilty; 10 cases not pressed. In the disposition of these cases, 23 were sent to State Prison; 15 to the House of Correction; 26 found to be insane or defective delinquents; 11 to reformatories and industrial schools; 11 placed on probation; 12 given probation with suspended sentences and 3 probation with restitution.

As required by Chapter 148, Section 49A of the General Laws, kerosene, petroleum or any products thereof kept for sale at wholesale or retail for illuminating, cooking or heating purposes is subject to inspection by the department for the purpose of determining whether or not a violation of Section 48 of the same chapter has occurred. Officers of this division have been assigned to such inspection and during the

year took 817 samples of petroleum throughout the commonwealth. A fee of \$1 for each sample so taken has been charged by the department.

Under the provisions of Chapter 148, Section 9, regulations governing the transportation of inflammable fluids over the highways of the commonwealth were promulgated during the past year.

It is required under these regulations that all trucks used in the transportation of inflammable fluids shall be approved by the State Fire Marshal. In carrying out the provisions of this regulation, officers of the division have been assigned to the inspection of such trucks. At the conclusion of the fiscal year, 1481 trucks have been inspected and approved and certificates issued, while 279 were disapproved.

At the request of the Commissioner of Mental Diseases, Assistant Fire Prevention Engineer Carl Stuetzel, Jr., and Building Inspector Harry Atkinson were assigned to make an inspection of state hospitals and schools which are under the supervision of the Department of Mental Diseases, with reference to fire prevention and fire protection.

There are 13 mental hospitals and 3 schools of feeble minded, which are being included in this inspection. These institutions have 25,751 inmates and approximately 6,400 employees. The total value of the buildings and contents is \$40,786,555.78.

This work was undertaken in September and at the close of the fiscal year inspections were completed at Belchertown State School, Gardner State Colony, Monson State Hospital and Northampton State Hospital. A total of 131 buildings were inspected at these places. A copy of the report of the inspecting officers on each hospital inspected has been forwarded to the Commissioner of Mental Diseases and to the Superintendent of the hospital concerned in the inspection.

Summary of Divisional Activities

Fires investigated, 4,146. Fire inquests held, 62. Blasting investigations, 21. Celluloid Storage, 1. Cleaning and dyeing establishments investigated, 1. Explosions investigated, 25. Filling stations investigated, 5. Fire Inspection of fire extinguishers for tank truck equipment, 7. Fireworks investigated, 40. Fuel Oil inspections, 51. Garages inspected, 13. Garages proposed, 4. Gas and oil storage inspections, 49. Investigations other than fires, 71. Miscellaneous investigations, 46. Oil transportation, 45. Oil truck inspections, 333. Quarries investigated, 1. Range oil burners inspected, 23. Shops and factories investigated, 4. Sprinkler locations investigated, 1. State hospitals inspected, 21. Storage of dynamite or explosives of any kind, 1.

Summonses served, 379. Days in Court, 387. Days on Special Duty, 70.

DIVISION OF INSPECTION

The Division of Inspection operates under the supervision of a director designated as Chief of Inspections and includes among its personnel twenty-one building inspectors, one of whom is assigned as Supervisor of Plans and twenty-six boiler inspectors, one of whom is in charge of the Bureau for the Storage of Liquids. These inspectors are assigned to districts with offices located within their respective assignments. The provisions of Chapter 143 of the General Laws, which are enforced by the building inspectors, apply to the construction, inspection and occupancy of certain classes of buildings. Chapter 146 of the General Laws which is enforced by the boiler inspectors, applies to the inspection of steam boilers and air tanks and to the examination and licensing of engineers, firemen and operators of hoisting machinery.

The duties of building inspectors include the examination and approval of plans for the construction of public buildings; supervision of construction to secure compliance with the law; the inspection of places of public assembly, hotels and lodging houses; the issuance of certificates for the use of public buildings; the examination of applicants for licenses as motion picture operators; the inspection of motion picture projection booths; the examination of applicants for the operation of elevators in cities and towns having no building inspection, and the general enforcement of State Building Laws and regulations.

The Boiler Inspection Division contributes to public safety by the inspection of steam boilers and air tanks and their appurtenances, to insure compliance with safety standards provided by law to safe guard life and property; by examination of applicants for licenses to operate boilers and steam plants, and other power machinery; and by general enforcement of laws, rules and regulations relating to steam boilers and power machinery.

BOARD OF BOILER RULES

The Board of Boiler Rules consists of the Chief of Inspections and four other members, each of whom represents a separate interest and who are appointed by the Commissioner. The board is required to hold hearings semi-annually to consider petitions for changes in the steam boiler rules. After consideration of such proposed changes and public hearings given for the benefit of those interested, such changes as are approved are incorporated in the regulations with the approval of the Governor and Council. In addition to the two meetings required by law for the consideration of changes in the regulations, the board hold regular monthly meetings during the year.

The number of authorized insurance company inspectors now holding certificates of competency from this division is 172. Twenty-one applicants for certificates of competency were examined during the year. Fourteen such applicants received certificates, but the remaining seven were refused.

The Total number of Massachusetts Standard, Massachusetts Special and Massachusetts Heat Boilers, and Massachusetts Standard Air Tanks, constructed in accordance with the rules and regulations formulated or prescribed by the Board of Boiler Rules of this Commonwealth, data reports for which have been received, is as follows:

		Total
Boilers:	Mass. Standard Boilers	188
	Mass. Special Boilers	4
	Mass. Heat Boilers	116
Air Tanks:	Mass. Standard Tanks	631
Total (Boilers and Air Tanks)		939

Boiler and Air Tank Inspection

Steam Boilers Inspected

Total number of boilers inspected, 7,943.
 Boilers inspected internally, 1,271.
 Boilers inspected externally, 6,481.
 Boilers inspected externally under steam, 191.
 Defects found on boilers, 1,379.
 Boilers ordered repaired, 1,747.
 Appendages ordered, or defective appendages repaired or replaced, 4,538.
 Number of boilers on which hydrostatic pressure test was applied, 5,430.
 Number of boilers on which maximum allowable pressure was reduced, 24.
 Number of boilers condemned, 3.
 Complaints investigated, 379.
 Prosecutions, 6.

Air Tanks Inspected

Total number of air tanks inspected, 119.
 Defects found on air tanks, 5.
 Air tanks ordered repaired, 36.
 Appendages ordered, or defective appendages repaired or replaced, 21.
 Number of air tanks on which hydrostatic pressure test was applied, 2.

Number of air tanks on which maximum allowable pressure was reduced, 7.

The following tabulation shows the number of inspections made by the Boiler Inspectors of the Division of Inspection during the past five years:

Year	Inspections of Steam Boilers		External Under Steam	Inspections of Air Tanks	Total Inspections
	Internal	External			
1931	1,740	7,509	363	188	9,800
1932	1,444	6,785	450	97	8,776
1933	1,425	7,420	266	92	9,203
1934	1,386	6,176	151	93	7,806
1935	1,271	6,481	191	119	8,062

General Summary of Examinations

Engineers' and Firemen's License Law:

Examinations for licenses as engineers and firemen, 2,331.

Licenses granted and applicants rejected: First-class engineers, granted, 29; rejected, 48. Second-class engineers, granted, 65; rejected, 204. Third-class engineers, granted, 162; rejected, 135. Fourth-class engineers, granted 25; rejected, 29. Steam fire engineers, granted—; rejected, —. Portable engineers, granted, 6; rejected, 3. First-class firemen, granted, 261; rejected, 152. Second-class firemen, granted, 499; rejected, 428. Specials to have charge of first-class plant, granted, 1; rejected, —. Specials to have charge of second-class plant, granted, 32; rejected, 29. Specials to have charge of third-class plant, granted, 50, rejected, 51. Specials to have charge of other plants, granted, 33; rejected, 5. Specials to operate first-class plant, granted, —; rejected, 1. Specials to operate second-class plant, granted, 6; rejected, 5. Specials to operate third-class plant, granted, 31; rejected, 17. Specials to operate other plants, granted, 16; rejected, 8.

Total licenses granted, 1,216. Total applicants rejected, 1,115. Licenses exchanged, —. Licenses suspended, 3. Licenses revoked, 2. Complaints investigated, —. Total service on Board, 853.

Operators of Hoisting Machinery License Law:

Applications received, 160. Licenses granted, 139; applicants rejected, 20. Complaints investigated, —.

Appeals

Provision is made in the law relating to the inspection of boilers and the licensing of engineers and firemen for appeals from refusal to grant certificates of competency and licenses.

These appeals are heard by a Board appointed by the Chief of Inspections and the decision of a majority of the members of the Board is final.

Fourteen such appeals were received during the year and in all but three cases the decision of the examiners was sustained.

Service of the Supervisor of Plans

Plans submitted, 628. Consultations, 2,321. Certificates, 768. Specifications of requirements, 67. Without action, —. Otherwise, 4. Plans filed, 637. Under consideration, 6. Total forwarded to inspector, 643.

Erection, Alteration and Inspection of Buildings

New Buildings: Plans received, 5. Construction inspected, 2,209

Existing Buildings: Inspections, 8,153. Changes inspected, 93. Visits,

10,738. Orders issued, 1,206; complied with, 746. Certificates issued, 2,024. Permit approved, 11.

Ventilation: Inspected, 82; tested, 60.

Elevators: Inspected, 20. Certificates issued, 19. Plans filed, 7. Operators licensed, 2.

Prosecutions: Days at court, 8. Complaints, 17. Convictions, 6. Fines, \$75. Placed on file, 4. Days on Special Duty, 28.

Operation of the Cinematograph and Exhibition of Motion Pictures: Booths inspected, 16. Machines inspected, 75. Sales Plates attached, 46. Safety film leaders, 147. Operators' licenses renewed, 1,861.

Applicants examined: Special licensed, 50; rejected, 34. First-class licensed, —. Second-class licensed, 10; rejected, 1. Special limited licensed, 5; rejected, —. Safety film licensed, 31, rejected, 2. Total examined, 133.

BOXING COMMISSION

Changes were effected during the year in the regulations of the Commission concerning fees for licenses to conduct boxing exhibitions in Boston and concerning the expiration date of licenses. As the result of these changes the cost of a license in Boston is based on the seating capacity of the place where the exhibitions are held instead of on the population. The expiration date of licenses is now one year from the date of issue rather than the last day of the year of issue.

The following is a statistical report for the period ending November 30, 1935:

The number of professional clubs conducting boxing matches and exhibitions was 15 and the number of exhibitions held was 122.

Receipts from license fees	\$7,687.00
Five per cent of gross receipts from boxing exhibitions	11,185.10
Clubs licensed, 15.	

Exhibitions authorized, 126.

Exhibitions disapproved, 0.

Exhibitions cancelled, 4.

Exhibitions held, 122.

Licenses granted: Boxers fees, \$3,182.00; managers, 15; seconds, 90; referees, 15; judges, 25; timekeepers, 11; physicians, 17.

Licenses revoked: Boxers, 0; managers, 0; seconds, 1; clubs, 0.

Licenses suspended: Boxers, 3; managers, 1; seconds, 1; clubs, 0.

Visiting boxers debarred from State, 332.

Visiting managers debarred from State, 11.

Visiting seconds debarred from State, 3.

Special and amateur exhibitions authorized, 172.

Special and amateur exhibitions disapproved, 0.

Special and amateur exhibitions cancelled, 3.

Special and amateur exhibitions held, 169.

Note: The item, "Boxers fees, \$3,182." mentioned above represents the total amount paid in license fees by boxers. The fee for a boxer's license is \$15, paid in installments of \$5 and \$1 each.

BALLISTICS LABORATORY

The duties of the Expert Assistant to the Commissioner who is assigned in charge of this laboratory are of a technical nature and include the observation, study, analysis and experimentation necessary to furnish expert assistance in the investigation and prosecution of important criminal cases.

In addition to the routine work of the laboratory on articles of evidence in preparation for the trial of cases, the personnel are engaged in special studies in ballistics, chemical warfare gases, firearms and related matters in order to develop aid to police activities in the suppression of crime.

A portable X-ray apparatus with fluoroscope attachment has been acquired as an addition to the equipment of the laboratory. This instrument will permit the examination of bombs, infernal machines and suspected packages without the hazard of opening or disassembling them. The contents of cartridges may be examined and clothing may be examined for concealed matter or for the detection of particles of bullet metal adjacent to bullet holes.

Ballistic Activities

Homicides by shooting — scenes visited for the gathering of evidence	12
Firearms examined	475
Firing experiments	175
Ballistic specimens examined	210
Consultations	150
Microscopical examinations	275
Dynamite destroyed	120 lbs.
Miscellaneous explosives, pistol cartridges, etc., destroyed	500 lbs.

BUREAU OF PHOTOGRAPHY

During the fiscal year of 1935, the Bureau of Photography has rendered twenty-four hour service and has been of assistance to practically all police departments of the Commonwealth, to other departments in the state service and, in some instances, to the Federal authorities.

Members of the personnel attached to the bureau have been specially trained in latent fingerprint identification as well as in classification and filing. The special knowledge gained in this training has contributed greatly to the efficient work carried on by the bureau, which has included, among other things, interior photography of homicide cases, incendiary fires and routine copy work on identification photographs and records. Approximately 5,000 identification photographs have been turned over to the bureau by the Supervisor of Criminal Identification for copying and extra prints. These have been completed and returned to the files of the Identification Bureau.

The photostatic equipment installed just prior to the beginning of the fiscal year has been utilized to the fullest extent and has been found extremely useful in reproducing extra copies of requested fingerprint records and other documentary evidence.

It becomes increasingly evident that greater attention is being given to latent fingerprint evidence by police officers in the various departments throughout the state, as there has been a noticeable increase in the number of requests for the development of latent fingerprint evidence.

A branch unit of the Bureau of Photography has been established at the headquarters of Troop B at Northampton and is expected to be in full operation by January 1, 1936. This unit will furnish service to our own officers and to the police of other departments in the four western counties of this state. The unit is to be furnished with photographic apparatus and all facilities necessary to maintain a high standard of service.

In cooperation with the Registrar of Motor Vehicles in the Department of Public Works, the personnel of ten branch offices of the Registry

were visited and instructed in the proper method of taking fingerprint impressions and the correct manner of filling in forms on fingerprint records. Various officers assigned to the Bureau of Photography were detailed to give this instruction. A total number of seventy-three persons were instructed; this number included both clerks and inspectors. The offices of the Registry where this work was carried on are located in: New Bedford, Fall River, Pittsfield, Lawrence, Lowell, Worcester, Quincy, Lynn, Brockton and Springfield.

CHEMICAL LABORATORY

The modern chemical laboratory has become an almost indispensable unit of crime detection and law enforcement forces. In its former quarters the department chemical laboratory was greatly handicapped by lack of suitable operating space. The addition of new facilities during the year and the change to new quarters have increased its efficiency. An important addition to the laboratory equipment was a Quartz Spectrograph which will provide aid in the analysis of dust traces, bullets, powder residues, metals, drugs and poisons. This instrument should prove to be a very useful aid in criminal investigation. A statistical summary of analyses performed in the laboratory follows:

Analyses

Blood analyses	10
Explosives and fireworks	27
Suspected poisons and drugs	18
Bullets and bullet fragments	30
Fires and explosions, material from	219
Inflammable liquids	126
Oils from the waters of the Commonwealth	12
Tars and cements	12
Human organs	6
Safety appliances and fire extinguishers	21
Alcohols (confiscated)	18
Paints, varnishes, lacquers	14
Hairs, fibres, cloth and clothing	11
Gun powder and powder residues	43
Fuel oils for safety	817
Bombs, fragments from	18
Miscellaneous analyses	24

Miscellaneous

Explosives destroyed, pounds	100
Assisting police and inspectors in investigations, days	17

SUPERVISION OF LORD'S DAY ENTERTAINMENTS

The supervision of Lord's Day entertainments is authorized under the provisions of Chapter 136 of the General Laws and during the year ending November 30, 1935, there was submitted to this bureau for the approval of the Commissioner of Public Safety a total of 23,291 licenses and programs of entertainments to be held on the Lord's Day. Of this number, 23,282 were approved and 9 disapproved, shown as follows:—Abington, 1; Boston, 2; Brockton, 1; Gardner, 1; Peabody, 1; Salisbury, 1; Wareham, 1; West Springfield, 1.

Each of these licenses and programs was accompanied by a fee of \$2.00, the amount totalling \$46,582, which was paid to the Treasurer of the Commonwealth. This amount was \$2,966 in excess of the year 1934.

In addition to the above number of licenses, there were 6,455 reels of motion picture film censored for showing on the Lord's Day, which were disposed of as follows:

Number of reels approved	6,243
Number of reels approved with deletions	163
Number of reels disapproved	49
Footage of film censored	5,809,500

There were also submitted for censorship 238 mutoscope reels and 556 sets of drop cards which were disposed of as follows:

Mutoscope reels approved	226
Mutoscope reels disapproved	12
Drop cards approved	550
Drop cards disapproved	6

Vaudeville acts are pre-viewed at the various theatres prior to their showing on the Lord's Day, at which time a record is made for files in this office of the name, kind of act, clothing and number of persons in said acts. The management of the theatres as well as the acts are notified of the required deletions to be made for Sunday presentations. There were 2,592 vaudeville acts reviewed for showing on the Lord's Day. Of this number, 1,675 were re-reviewed. The remaining 917 were acted upon as follows:

Acts approved	355
Acts approved with deletions	336
Acts disapproved	226

Operators of twelve theatres and eight other amusements were granted hearings for violations of regulations and after due deliberation the cases of these operators were disposed of as follows:

Cases placed on file with warnings	19
Theatre license suspended	1

The personnel assigned to this bureau perform various duties in connection with the enforcement of the law governing entertainments held on the Lord's Day in this Commonwealth. In addition to their functions as censors, they are required to perform such other duties as may be assigned them from time to time, such as the checking of licenses as approved by the Commissioner of Public Safety to determine whether or not they are exercised as originally approved. It is also necessary to check all entertainments at the many different theatres, halls, amusement parks and beaches.

The entertainments are varied in character. The theatres and larger halls offer stage presentations, vaudeville and motion pictures; while in the different community theatres and halls, plays are conducted by both professional and amateur performers. Many of these performances are in a foreign tongue and require the service of interpreters in censoring. At the amusement parks and beaches are conducted the many different rides, games, sideshows, etc., which require careful supervision.

As in the past we have received the cooperation of the majority of operators and licensing authorities in the different cities and towns in which amusement parks and beaches are located. In this connection there were approximately 1,740 performances in theatres inspected. Every amusement device or show, exhibit and game operated at the different amusement parks and beaches is inspected at least once during each season.

From time to time during this past season numerous mechanical games, varied in character, have made their appearance in various locations, throughout the Commonwealth. Many of these games have been disapproved for use in the Commonwealth, and the operators were notified to remove the games from the premises immediately.

Below is a summary of the amusements and amounts collected for same during the year 1935:—

	Number of Licenses	Amount
Motion picture exhibitions, vaudeville and theatricals	17,305	\$34,610
Amusements at beach resorts and at summer parks	5,684	11,368
Golf driving ranges	266	532
Outdoor miniature golf	27	54
Total licenses approved	23,282	\$46,564
Licenses for various amusements disapproved	9	18
Total number of licenses	23,291	\$46,582

SALE AND CARRYING OF FIREARMS

The sale and carrying of firearms is regulated by General Laws, Chapter 140, Sections 121 to 131B, inclusive. These statutes provide for supervision by the department of all records of sales of firearms and of licenses issued and of licenses to carry firearms issued by the proper authorities.

Chapter 359 of the Acts of 1934 amended the definition of "firearms"

so as to include all weapons with barrels up to eighteen inches in length and added a new section to Chapter 269 of the General Laws providing that all dealers in rifles or shotguns shall, before delivery of such weapons, upon a sale, make a record of such sale to be forwarded to this department.

During the year ending November 30, 1935, the following records were received and recorded in the files of this department:

Number of licenses issued to dealers, 32.

Number of Sales reported by dealers, 735.

Number of licenses issued for the carrying of firearms, 19,442

Number of licenses issued for the carrying of firearms, revoked, 62.

Number of sales of rifles and shotguns reported by dealers, 9,704.

The following is the number of licenses to carry firearms issued by each city and town:

Abington, 39; Acton, 16; Acushnet, 31; Adams, 64; Agawam, 62; Alford, —; Amesbury, —; Amherst, 27; Andover, —; Arlington, 94; Ashburnham, 12; Ashby, 5; Ashfield, 11; Ashland, 19; Athol, 77; Attleboro, 112; Auburn, 27; Avon, 10; Ayer, 25; Barnstable, 126; Barre, 2; Becket, —; Bedford, —; Belchertown, —; Bellingham, 10; Belmont, 104; Berkley, 3; Berlin, 10; Bernardston, 9; Beverly, 204; Billerica, 79; Blackstone, 6; Blandford, 11; Bolton, 2; Boston, 3,101; Bourne, 38; Boxboro, 2; Boxford, 19; Boylston, 8; Braintree, 130; Brewster, 2; Bridgewater, 54; Brimfield, 7; Brockton, 272; Brookfield, 30; Brookline, 128; Buckland, 26; Burlington, 21; Cambridge, 451; Canton, 31; Carlisle, 8; Carver, 34; Charlemont, 4; Charlestown, —; Chatham, 12; Chelmsford, 99; Chelsea, 90; Cheshire, 7; Chester, 28; Chesterfield, 8; Chicopee, 115; Chilmark, —; Clarksburg, 3; Clinton, 49; Cohasset, 46; Colrain, 6; Concord, 175; Conway, 5; Cummington, 7; Dalton, 46; Dana, 5; Danvers, 70; Dartmouth, 64; Dedham, 51; Deerfield, —; Dennis, 28; Dighton, 9; Douglas, 1; Dover, 5; Dracut, 27; Dudley, 13; Dunstable, 2; Duxbury, 46; East Bridgewater, 39; East Brookfield, 5; East Longmeadow, 63; Eastham, 3; Easthampton, 67; Easton, 41; Edgartown, 4; Egremont, 13; Enfield, 5; Erving, 9; Essex, 8; Everett, 71; Fairhaven, 73; Fall River, 148; Falmouth, 94; Fitchburg, —; Florida, 3; Foxborough, 35; Framingham, —; Franklin, 61; Freetown, 6; Gardner, 147; Gay Head, —; Georgetown, 26; Gill, 10; Gloucester, 120; Goshen, —; Gosnold, —; Grafton, 50; Granby, —; Granville, 9; Great Barrington, 20; Greenfield, 118; Greenwich, 5; Groton, 50; Groveland, 23; Hadley, 14; Halifax, 9; Hamilton, 35; Hampden, 10; Hancock, —; Hanover, 23; Hanson, 16; Hardwick, 11; Harvard, 8; Harwich, 30; Hatfield, 17; Haverhill, 161; Hawley, 1; Heath, —; Hingham, 24; Hinsdale, 6; Holbrook, 19; Holden, 13; Holland, —; Holliston, 26; Holyoke, 79; Hopedale, 38; Hopkinton, 9; Hubbardston, 5; Hudson, 70; Hull, 41; Huntington, 13; Ipswich, 28; Kingston, 22; Lakeville, 12; Lancaster, 16; Lanesborough, 10; Lawrence, 338; Lee, 15; Leicester, 45; Lenox, 11; Leominster, 132; Leverett, —; Lexington, 75; Leyden, —; Lincoln, 16; Littleton, 11; Longmeadow, 54; Lowell, 133; Ludlow, 68; Lunenburg, 32; Lynn, 320; Lynnfield, 38; Malden, 128; Manchester, 50; Mansfield, 64; Marblehead, 37; Marion, 26; Marlborough, 46; Marshfield, 30; Mashpee, —; Mattapoisett, 16; Maynard, —; Medfield, 23; Medford, 122; Medway, 8; Melrose, 165; Mendon, 5; Merrimac, 19; Methuen, 131; Middleborough, 71; Middlefield, 1; Middleton, 23; Milford, 65; Millbury, 30; Millis, 15; Millville, —; Milton, 80; Monroe, 3; Monson, 39; Montague, 12; Monterey, 3; Montgomery, 3; Mount Washington, —; Nahant, 8; Nantucket, 12; Natick, 68; Needham, 56; New Ashford, —; New Bedford, 281; New Braintree, —; New Marlborough, 2; New Salem, 3; Newbury, 17; Newburyport, 63; Newton, 244; Norfolk, 20; North Adams, 109; North

Andover, 61; North Attleborough, 41; North Brookfield, 28; North Reading, 27; Northampton, 165; Northborough, 13; Northbridge, 22; Northfield, 9; Norton, —; Norwell, 5; Norwood, 116; Oak Bluffs, 4; Oakham, 3; Orange, 53; Orleans, 22; Otis, 2; Oxford, 6; Palmer, 47; Paxton, 10; Peabody, 69; Pelham, 2; Pembroke, —; Pepperell, —; Peru, —; Petersham, 9; Phillipston, 2; Pittsfield, 423; Plainfield, 2; Plainville, 9; Plymouth, 127; Plympton, 4; Prescott, —; Princeton, 5; Provincetown, 15; Quincy, 276; Randolph, 40; Raynham, —; Reading, 62; Rehoboth, 9; Revere, 47; Richmond, —; Rochester, 3; Rockland, 58; Rockport, 41; Rowe, 6; Rowley, 11; Royalston, 10; Russell, 25; Rutland, —; Salem, 6; Salisbury, 47; Sandisfield, 4; Sandwich, 25; Saugus, 49; Savoy, 7; Scituate, 22; Seekonk, 4; Sharon, 18; Sheffield, 6; Shelburne, 29; Sherborn, 4; Shirley, 9; Shrewsbury, 52; Shutesbury, —; Somerset, 27; Somerville, 227; South Hadley, 27; Southampton, 13; Southborough, —; Southbridge, 122; Southwick, 12; Spencer, 45; Springfield, 651; Sterling, 21; Stockbridge, 6; Stoneham, 27; Stoughton, 42; Stow, 13; Sturbridge, —; Sudbury, 8; Sunderland, 2; Sutton, 17; Swampscott, 140; Swansea, —; Taunton, 207; Templeton, —; Tewksbury, 20; Tisbury, 1; Tolland, —; Topsfield, 17; Townsend, 18; Truro, 4; Tyngsborough, 20; Tyringham, —; Upton, 17; Uxbridge, —; Wakefield, 135; Wales, 4; Walpole, 56; Waltham, 190; Ware, 73; Wareham, 71; Warren, 65; Warwick, 5; Washington, 2; Watertown, 16; Wayland, 17; Webster, 62; Wellesley, 41; Wellfleet, 17; Wendell, 3; Wenham, 16; West Boylston, 11; West Bridgewater, 21; West Brookfield, 21; West Newbury, 12; West Springfield, 79; West Stockbridge, 3; West Tisbury, —; Westborough, 29; Westfield, 205; Westford, 12; Westhampton, 2; Westminster, 4; Weston, 39; Westport, 36; Westwood, 18; Weymouth, 72; Whately, 1; Whitman, 56; Wilbraham, 22; Williamsburg, 11; Williamstown, 17; Wilmington, 30; Winchendon, 65; Winchester, 66; Windsor, 2; Winthrop, 63; Woburn, 34; Worcester, 573; Worthington, 8; Wrentham, 22; Yarmouth, 35; Second District Court of Southern Worcester, 154; Department of Public Safety, 1013.

A change in the forms used for applications for licenses to carry firearms and licenses to carry has been made, and such forms are now in the hands of the printer. When available for use, the new form of application will contain provisions for the fingerprinting of all applicants for licenses to carry firearms and for the use of the photograph of the licensee upon the license. It is expected that this change will aid in the regulation of carrying firearms throughout the Commonwealth.

It is also proposed to limit the authority under a license to carry firearms to a particular firearm so that the privilege given by the license will extend only to the firearm specifically described therein. It is expected that this procedure will serve eventually as an inventory of all firearms within the Commonwealth.

PRIVATE DETECTIVE LICENSES

It is provided in General Laws, chapter 147, section 22, that no person shall engage in the business of or solicit business as a private detective unless licensed so to do according to law. Licenses of this character are issued by the Commissioner of Public Safety after careful investigation of the character and standing of the applicant. During the fiscal year of 1935 there was issued a total of 32 licenses, four of which were new licenses to individuals, one new license to corporation, eighteen were renewals to individuals and nine were renewals by corporations. Fees amounting to \$4,200 were received for these licenses and paid to the Treasurer of the Commonwealth.

FORFEITED LIQUORS

A storeroom is maintained at 1266 Columbus Avenue, Boston, for the storage of all liquors forfeited by the courts in the administration of the liquor laws. During 1935 the following amounts of liquors or spirits were received, destroyed, placed in storage or delivered to State Institutions according to law:

Total gallons received	3,221	9/16
Total gallons destroyed	1,362	13/16
Total gallons of spirits placed in storage	1,857	
Delivered on requisition to State Institutions (gallons)	2,023	
Total gallons of spirits in storage, November 30, 1935	1,356	

STORAGE OF LIQUIDS

The enforcement of General Laws, Chapter 148, sections 37-38, is delegated to a Boiler Inspector specially qualified for such duties. These laws and the regulations made thereunder cover the so-called bulk storage of liquids other than water. The purpose of the supervision is to insure safe construction of all tanks and containers used in such storage.

The following statistics relate to trucks constructed or maintained under these laws:

Permits issued for new construction	99	
Permits issued for re-location	1	
Permits issued for transfer of tank	1	
	1934	1935
Number of cities and towns in which tanks are located	200	202
Number of corporations maintaining tanks	341	348
Number of tanks in use	2855	2956

The Inspector assigned to this duty also checks the specifications of all new steel boilers and air tanks installed in Massachusetts which are subject to State law and performs such other duties as are prescribed by the Commissioner or Chief of Inspections.

AMOUNTS PAID TO THE TREASURER OF THE COMMONWEALTH

The following amounts represent the fees received with applications, and for the respective services named, have been paid to the Treasurer of the Commonwealth by the Department of Public Safety during the fiscal year ending November 30, 1935:

Net Fees from December 1, 1934 to November 30, 1935

Abstracts and Digests, general laws	\$759.65
Air Tanks, fees for inspection of	372.00
Auctioneer license law, forms furnished in compliance with	5.22
Boilers, fees for inspection of	49,072.57
Boxing Exhibitions:	
Five per cent of gross receipts from boxing exhibitions	11,185.10
Licenses to conduct boxing exhibitions, also licenses as physicians, referees, judges, timekeepers, professional boxers, managers, trainers, or seconds, applications for	7,687.00
Certificates of Competency, applications for	360.00
Commission on money taken in at Pay Stations	39.33
Elevator Licenses	5.50
Engineers' and Firemen's licenses and operators' hoisting machinery licenses, applications for, and appeals	8,768.00
Entertainment Inspection	228.00

38	P.D. 32.
Escort Duty, State Police	10,517.00
Firearm Law, forms furnished in compliance with	715.63
Forfeited Liquors	61.07
Insurance damaged cars	759.94
Lord's Day Entertainments, applications for approval of	46,666.00
Miscellaneous Income:	
Abandoned Property	16.89
Damage to State Police Motor Car	7.00
Cost of replacing equipment	23.44
Postage	1.29
Moving Picture Machines:	
Assistants' permits and renewals, applications for	313.50
Booths	34.00
Film leaders	139.20
Licenses other than Safety Film, applications for	337.00
Machines	146.00
Renewals of Licenses to operate other than Safety Film, appl.	1,727.00
Safety Film licenses and renewals, applications for	512.00
Sales Plates	27.00
Special Exhibition permits, applications for	136.00
Petroleum Products, inspection of	421.00
Private Detective Licenses, application for	4,200.00
Rent of Land — West Concord	60.00
Sales:	
Badges, clubs, belts, etc.	74.00
Barracks and equipment	238.65
Confiscated Weapon	.50
Used Tires	306.00
Seized Money Fund	713.64
Seized Motor Cars	14.10
Ticket Sellers' licenses, applications for	300.00
Witness fees	21.48
Total	\$146,971.70

IN GENERAL

I wish to reiterate my recommendation of a year ago that a Bureau of Pathology be established within the Department, and to recommend also the purchase of an airplane for the State Police, and the construction of a State Police Patrol Boat.

Numerous events during the year have demonstrated the many practical uses for an airplane equipped with two-way radio.

The Department of Conservation, the Boston Port Authority, the Maritime Association, the Master Mariners Association, the Gloucester Chamber of Commerce, and other organizations have advocated the restoration of coastal water patrol by the State Police, a service which had been given for 100 years and which was suspended in May, 1933, due to the unserviceability of the boat then used.

This report should not be concluded without commenting upon the loyal cooperation and the valuable services rendered by the entire personnel of the Department, who have made possible the substantial accomplishments of the year, nor without referring to the generous assistance given to us by all branches and departments of the government of our Commonwealth.

Respectfully submitted,

PAUL G. KIRK,
Commissioner of Public Safety.
